#### **Fall 2020 Classroom Assignments**

This classroom assignments document provides information on courses for fall 2020. The information is current as of 08/04/2020. The document identifies the course section, instructor, format (lecture, lab, recitation, workshop, etc), meeting pattern, location and whether that section will be taught online or in-person.

Keep in mind the following when reviewing this document:

- Make sure to review all sections of the course (lecture, recitation, etc.) that you have registered for. For example, a lecture section may be online, while a lab section may have in-person elements. It is important to review all sections to understand how the course as a whole will be taught.
- Sections coded as "in person" can be assumed have an online equivalent.
- Room locations will change for a number of courses as the Registrar's Office modifies current assignments to allow for social distancing. The information provided on this sheet is for your immediate reference.
- Courses coded "N/A" typically do not need a classroom; information on format is forthcoming for courses with "TBD."
- For Eastman School of Music (ESM) courses, all applied lessons offered to River Campus students will be taught online. All classroom-based courses that are taught on the Eastman campus are likely to be offered in an asynchronous online format, but limited exceptions will be made and posted online to UR Student in coming days. All Eastman performance ensembles will be offered in-person with appropriate safety protocols in place at all times.
- The majority of School of Medicine and Dentistry (SMD) courses for undergraduates will be online, but students should check in UR Student to confirm.

The Office of the University Registrar will update room locations and other course information in UR Student starting August 10. Please use <a href="UR Student">UR Student</a> in the upcoming weeks to stay current on this information.
